

Even though our community has a local radio station with Christian programming, K-LOVE provides me with more music and less talk. K-LOVE supports the kind of community I live in, family and church oriented. If K-LOVE were to be displaced there would be one less resource for keeping my community focused on these important values. Words cannot describe how K-LOVE keeps our spirits high and prevents loss of hope in this very troubled and sick world. It is so comforting to feel a part of the K-LOVE family and know that there is a country full of listeners and believers with our same values.
